Agenda (proposal)

- 1) Call for comments – Results (silke)
- 2) Response from Standards Committee (kathy)
- 3) Report from documentation team meeting (Kathy)
 - a) Tag library editor
 - b) Standards portal representation volunteer
- 4) Discussing issues for the update (all)
 - a) Confirm clear issues for update:
 - #33: [@standardDate, @standardDateTime: remove regex pattern](#)
 - #32: [<dateRange>: best practice](#)
 - #31: [<fromDate>, <toDate>: add @localType](#)
 - #24: [Description for element <useDates> in the tag library is not clear](#)
 - #22: [Description of the attributes @longitude, @altitude in the tag library is incorrect](#)
 - #19: [<preferredForm>: relax restriction xs:NMTOKEN](#)
 - #17: [<placeEntry>: should be repeatable](#)
 - #16: [<otherAgencyCode>: relax restriction xs:NMTOKEN](#)
 - #15: [<agencyCode>: add attribute @type](#)
 - #14: [<agencyCode>: change or remove regex pattern](#)
 - #13: [<sourceEntry>: should be repeatable](#)
 - #12: [<eventDescription>: should be repeatable](#)
 - #11: [<agencyName>: should be repeatable](#)
 - #10: [<languageDeclaration>: should be repeatable](#)
 - #2: [<citation>: Change TL to non-repeatable](#)
 - b) Discuss and decide non-clear issues for update:
 - #30: [@scriptCode: remove and adjust tag library for @xml:lang/@lang](#)

- #29: [Language codes: adopt EAD 3 solution](#)
- #28: [@xml:lang: adopt EAD 3 solution](#)
- #27: [Remove xml ns to align with EAD 3](#)
- #8: [<eventType>: element content should become attribute value, add value](#)
- #7: [<agentType>: element content should become attribute value, add value](#)
- #6: [<publicationStatus>: element content should become attribute value, add value](#)
- #5: [<maintenanceStatus>: element content should become attribute value](#)
- #3: [<eac-cpf>: Remove XLink namespace](#)
- #1: [attribute "accuarcy" should be "accuracy"](#)

5) Any other business (all)

6) Next meeting

- proposal: 12 or 16 February 2018
