

TS-EAS - EAC-CPF team

Place: Virtual meeting, Zoom

Date: Thursday, 01 September 2022, 7am Boston/1pm Berlin/9pm Melbourne

Attendees: Iris, Karin, Kerstin, Marie, Silke

Topic: TS-EAS EAC meeting

Notes

Note taker: Marie

1. Preparation for EAC-CPF revision webinar

- Propose November 14 & 15, same time block as EAD webinar, which had good attendance at both sessions:

Monday November 14

Session 1 covering Oceania and the Americas

10pm GMT: 5pm ET, 9am Melbourne Time (the next day)

Tuesday November 15

Session 2 covering Europe, Africa, and Asia

9am GMT: 10am CET, 6pm Tokyo Time

- Marie will set up template for slides and ask for volunteers for speakers for sections

2. EAD major revision meetings update

- Main topics regarding EAC alignment were
 - Predefined list for new attributes (@maintenanceStatus, @publicationStatus, @agentType, and @maintenanceEventType)
 - Remove list and give recommendations?
 - Change to NMTOKEN?
 - Is it a question for TS-EAS regarding recommended vs limited list?
 - Kerstin can create issue in GH, Karin will comment that it will be brought up in standards
 - Control will affect EAC-F as well
- With more than 1 language
 - Indicate primary/dominant language in <languageDeclaration>? (using @status?)
 - Just assume first language is primary?
 - Also in <langMaterial> <languageUsed>
 - More cases in finding aids than CPF records?

- <localControl>
 - Will likely go ahead and remove it from a first draft of EAD 4.0
- <fileDesc> changes might end up in <control>
- Wait to make decisions until after Hague meeting

3. Best Practice Guide

- When new notes / suggestions come in, what is the workflow?
 - i.e. someone creates an issue, Iris/EAC team member creates a pull request based on that?
- Schema team can discuss it (Karin can raise it at the October Schema meeting)

4. EAC-CPF Wikipedia entry

- An issue for Outreach?
- Karin will email Cory (done)

6. Next meeting

- Planned: Thursday, 6 October 2022
